SUGARING /COATING MACHINE

Topos has taken automatic sugaring to the next level. Our machines are designed to give your product a uniform, adherent coating of powered sugars, cinnamon, and similar types of coatings. It is an adjustable, high capacity machine which will produce a consistent coating on your product. Being easy to clean, maintain and to operate means that our machines pay for themselves. Our Sugaring Machines allow for smooth operations 3 shifts a day everyday of the year. Maintenance requirements are minimal; sanitation is easy. Both the T-1000 and the T-2000 are available with left or right side sugaring bins with an approximate 200 pound storage bin capacity. The configuration to be selected will depend on its convenience for loading the sugar bin while in production.requirements are minimal; sanitation is easy. Both the T-1000 and the T-2000 are available with left or right side sugaring bins with an approximate 200 pound storage bin capacity. The configuration to be selected will depend on its convenience for loading the sugar bin while in production.

WHY US?

With a rich and storied history spanning over 73 years, our company has solidified its position as a leading expert in theproduction of baking machines. Throughout this remarkable journey, we have acquired extensive knowledge and invaluable experience in the intricate processes of dough and pastry production. Our team of skilled professionals specializes in mixing, dough handling, and the creation of top-of-the-line doughnut equipment.

At the core of our mission is an unwavering commitment to delivering products of unparalleled quality and production efficiency.Each machine is meticulously designed and crafted to ensure optimal performance, empowering our customers to achieve exceptional results in their baking endeavors.

Our dedication to customer satisfaction has earned us a reputation as a preferred choice among discerning clients. A significantreason behind this preference is our diverse product range, which encompasses not only various types of dough making machines but also cutting-edge solutions for dough production and processing at different stages. From transport and cooling conveyors to doughchunkers, proofers, fryers, and more, our comprehensive selection offers versatility and innovation. Moreover, we take pride in providing our customers with a plethora of choices to fully meet their unique requirements. As partof our commitment to personalized service, we offer custom manufacturing options. This means that we can modify existing machines or design completely bespoke solutions tailored precisely to match our customers' specific needs.

With expertise spanning multiple aspects of the baking industry, including mixing, dough handling, and doughnut equipment,our company stands as a reliable partner for bakeries, pastry shops, and food production facilities worldwide. We remain resolute in our pursuit of excellence, consistently pushing the boundaries of innovation and efficiency to elevate the success of our esteemedclientele.
